Mr. Joseph Jackson, 15 Woodland St., Worcester, Mass.

Dear Mr. Jackson: -

I want to thank you for the very interesting new edition of the Worcester Col flora which Professor Poland handed to me a few days ago. I am very glad to get it.

I have not forgotten the pleasant day's trip which you made some years ago to Mt. Wachusett, at the time I was visiting with Professor Pailey at the Grand View House at the foot of the mountain. If I had the sight of my initials in several places in the flora would have recalled the day.

Very truly yours,

CONSTITUTION

OF THE

Josselyn Botanical Society

OF

MAINE.

ADOPTED AT FARMINGTON, JULY 7-10, 1896.

...CONSTITUTION...

ARTICLE I.

NAME AND OBJECT.

The name of this Organization shall be the Josselyn Botanical Society of Maine; and its object shall be to promote the study of the Flora of the State.

ARTICLE II.

OFFICERS.

The officers shall be a President, five Vice-Presidents, a Secretary, an Assistant Secretary and a Treasurer; and their duties shall be those usually performed by such officers. They shall be elected annually, and shall hold office until others are elected in their place.

ARTICLE III.

MEMBERSHIP AND FEES.

Any person interested in botany shall become a member by vote of the Society, and by payment of the necessary fee. The initiation fee shall be one dollar. For the first year of membership there shall be no assess-

ment, but after that there shall be an annual fee of fifty cents.

ARTICLE IV.

COMMITTEES.

Such Committees shall be appointed as the work of the Society shall make necessary. The Executive Committee shall be composed of the officers of the Society and the Chairmen of the various Committees; and those present at any regularly called meeting shall have power to transact the business of the Committee.

ARTICLE V.

MEETINGS.

The Society shall hold an Annual Meeting. Special meetings shall be called at the discretion of the Executive Committee.

ARTICLE VI.

AMENDMENTS.

This Constitution may be amended at any meeting of the Society by vote of two-thirds of the members present.

The Committee of Arrangements of the JOSSELYN BOTANICAL SOCIETY announce that the Annual Meeting and Field Day of the Society for 1902, will be called at Machias, July 8 to 11, inclusive.

Announcement of our programme and transportation and hotel arrangements will be sent to members two weeks previous to the meeting.

8.00 P. M.—The Sea Weeds of New England,
By Frank Shipley Collins.

FRIDAY, JULY 11TH.

Excursions.

8.00 P. M.—Business and Social Meeting and Adjournment.

ANNOUNCEMENTS.

Tickets for Machias and return may be bought on or after Monday, July 7th, at the Maine Central R. R. stations named in the enclosed list or at any stations of the Washington County R. R., at one fare for the round trip. These tickets will be good for return on or before Saturday, July 12th.

The headquarters of the Society will be at the Eastern Hotel, Machias, where rooms and board may be had at \$1.50 and \$2.00 per day. The committee think it desirable for all members of the Society to take rooms at this hotel, but if any desire rooms and board elsewhere they may be secured, at reasonable rates, on application by letter to the Chairman of the Committee of Arrangements.

Members should plan to reach Machias, Monday evening, July 7th. Train leaves Portland at 10:15 A. M.; Brunswick, 11:10; Waterville, 1:35 P. M.; Bangor, 3:15; arriving at Machias at 6:28.

During the evening we hope to meet some of the people of Machias and vicinity who are interested in the Josselyn Society, and to complete the plans and preparations for the Field Day Excursions.

Josselyn Botanical Society of Maine.

To Franklin Collins,

In compliance with the expressed wishes of many members of the Josselyn Botanical Society of Maine, we have decided to arrange for the Seventh Annual Meeting and Field Day of the Society at some point on the coast of Maine near Penobscot Bay, or farther east. As an aid to us in selecting a place that will be convenient and satisfactory to the greatest number, we ask you to state whether or not you expect to attend the meeting this year, what date you would prefer for the meeting, and what place within the limits mentioned.

Make such remarks and suggestions as you may wish, all on the enclosed sheet, and return it at once to the chairman of the Committee of Arrangements.

The Maine Central and the Washington County Railroads will give us half fare to any station on either of these roads.

D. W. FELLOWS,

B. P. SNOW,

M. A. CLARK,

Committee of Arrangements.

Programme.

Monday, June 29th.

8.00 p.m Social Meeting at the Library Parlors.

Address of Welcome by Prof. A. L. Lane, President of the Josselyn Botanical Society.

Response by Capt. H. L. Spinney, President of the Ornithological Society.

Tuesday, June 30th.

8.30 a.m. Business meetings of both societies.

Ercursions.

8.00 p.m. "The Flora of Eastern Massachusetts in relation to the Flora of Maine," by William Penn Rich.

Wednesday, July 1st.

Ercursions.

8.00 p.m. "Birds from a Light-house," by Capt. Herbert L. Spinney.

Thursday, July 2d.

Excursions.

8.00 p.m. "The Fern Plants of New England," by Alvah Augustus Eaton.

Friday, July 3d.

Excursions.

8.00 p.m. "The Economic Value of Birds," by John Merton Swaine.

Announcements.

Tickets for Skowhegan and return may be bought on or after Monday, June 29th, at the Maine Central Stations named in the enclosed list for one fare the round trip, and at any station of the Washington County R. R. for one and one-third fare. These tickets will be good for return on or before Saturday, July 4th.

The headquarters of the two Societies will be at the Hotel Coburn, Skowhegan, where board and rooms may be obtained by those attending these meetings, at \$1.50 per day.

Members should plan to connect at Waterville with the train leaving that place for Skowhegan at 4.20 p.m., Monday.

The two Societies will make one or more excursions each day, either together or in different parties, to interesting and accessible localities by electric cars and by carriages.

The evening meetings will be held at the Library Parlors, and all persons interested are cordially invited to attend, and also to join in the excursions.

Josselyn Botanical Society of Maine.

This Society will hold its Tenth Annual Meeting and Field Day at Fort Kent, Aroostook County,

JULY 6TH, 1904.

Extremely low rates will be granted by the Maine Central and Bangor & Aroostook Railroads. The Hotel Dickey at Fort Kent also offers greatly reduced rates. Tickets will be made good to remain two weeks and it is hoped all members will avail themselves of the opportunity thus offered to visit this wonderfully rich portion of the State.

Programmes and detailed information will be sent to members, June 15th.

DORA H. MOULTON, Secretary,

9 Hill St., Portland, Me.

ANNOUNCEMENT

OF THE

TENTH ANNUAL MEETING

AND

FIELD DAY

OFTHE

Josselyn Botanical Society

OF MAINE.

Ж

FORT KENT, MAINE, JULY 6, 1904. THE excursion of the Josselyn Botanical Society of Maine this year will be by the Bangor & Aroostook Railroad to Fort Kent, on the St. John, at the mouth of Fish River. Here the annual meeting of the Society will be held, and the field work will be continued during the four days of the meeting, and it is hoped that many members will remain for a longer time.

Botanists from New Brunswick and Nova Scotia are invited to join us at Fort Kent, and we are assured that these Provinces will be well represented.

RAILROAD AND HOTEL ARRANGEMENTS.

Tickets for the round trip may be obtained on Tuesday, July 5, at any ticket office of the Maine Central Railroad on the enclosed list, for one fare to Old Town and five dollars additional. These tickets will be good for return for two weeks.

Members may take train leaving Portland at 10:30 P. M. Tuesday, or 12:55

midnight, and connect with train leaving Bangor at 7:10 A. M., Wednesday, July 6. Both these trains have sleepers without change at Bangor. Tickets are also good to go to Bangor on any train Tuesday and remain over night.

The headquarters of the Society will be at Hotel Dickey. Rate, \$1.50 a day.

Program.

Wednesday, July 6, at 8 p. m., a business meeting of the Society is called.

Friday, July 8, at 8 p. m., Mr. Merritt Lyndon Fernald will address the Society on "The Flora of the St. John Valley".

The committee recommend that evenings for which no other provision is made be devoted to informal meetings for comparison of notes and collections.

It is hoped that each standing committee will be prepared to report at this meeting.

ANNOUNCEMENT

OF THE

ELEVENTH ANNUAL MEETING

AND

FIELD DAY

OF THE

JOSSELYN BOTANICAL SOCIETY

OF MAINE

AT KITTERY POINT AUG. 14-18, 1905 THE JOSSELYN BOTANICAL SOCIETY OF MAINE will have its annual meeting this year at Kittery Point: This is the extreme southern point of the state, and many plants of southern range not yet reported from the state are to be looked for. The attendance of several botanists from Washington and other places will add much to the interest and value of the meetings.

Tickets at reduced rates may be obtained at any station of the Maine Gentral Railroad on the enclosed list. Call for tickets to Kittery Point and return on account of the Josselyn Botanical Society.

Kittery Point is reached by trains of the Eastern division of the Boston & Maine Railroad to Kittery Junction, thence by electric cars to Hotel Champernowne, Kittery Point.

Members should plan to reach the hotel not later than six o'clock Monday evening. August 14, that they may be present at the business meeting of the Society on that evening.

Accommodations, including rooms and board for members and guests of the Society, will be provided at the Hotel Champernowne, Kittery Point. Rates, \$2:00 and \$2.50 a day.

PROGRAM

Monday, August 14, 8 P. M., a meeting of the Society will be held for the transaction of business, including reports of all standing committees.

Tuesday, August 15, 8 P. M., Dr. Fred Dayton Lambert, of Tufts College, will speak on "The Alternation of Generations in Plants." This will be a public meeting, and all persons interested are cordially invited to attend.

On the evenings of Wednesday and Thursday informal meetings of the Society will be held for various reports and for comparison of notes and collections:

The 1906 meeting of the Josselyn Botanical Society of Maine will be held the first week in July, at the Rowe Ponds Camps, Pleasant Ridge Plantation, Somerset County, where very favorable terms have been secured. A special rate of 1 3-4 cents per mile has been assured by the Maine Central Railroad. This meeting is to be held in the Maine woods, and will be particularly unique and interesting. The camps are about 10 1-2 miles northwest of Bingham—the nearest village—and are reached by carriage (7 1-2 miles), and buckboard (3 miles).

Further and more detailed information will be sent to the members in June.

ARTHUR H. NORTON,
Secretary.

POSTAL CARD.

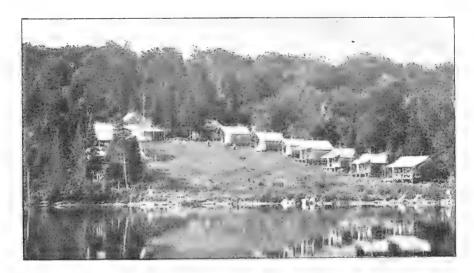

THE SPACE BELOW IS FOR THE ADDRESS ONLY.

time fought in at a pleating dream that shows much pand ent Of every cuty rane

JOSSELYN BOTANICAL SOCIETY OF MAINE

Twelfth Annual Meeting, July 3-6, 1906

CAMPS

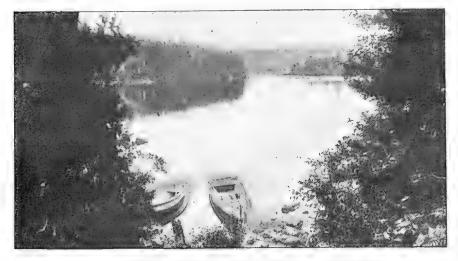

HIS meeting will be held at the Rowe Ponds Camps, Pleasant Ridge Plantation, Maine. It promises to be of unusual interest, occurring as it will in a small clearing, in the great forest which covers so much of our state. There will be abundant opportunity for studying and collecting the characteristic plants of forest,

lake and stream. This region has a decidedly different flora from any which the society has previously visited.

Members should reach Bingham on the afternoon train of Monday, July 2, and engage rooms at the Bingham Hotel for the night. Late in the afternoon or early the next morning it will be possible to do some collecting in the vicinity. The next forenoon (July 3), at about nine o'clock, the party will leave Bingham Hotel, in Mr. Healy's teams, for Pleasant Ridge, seven miles distant. Occasional brief stops can be made, as well as one of longer duration, in order to visit the picturesque and botanically interesting Houston Brook Falls (50 feet high), a short distance from the road. Luncheon will be served at Mr. Healy's house on the Ridge at about noon, or a little later, after which the start will be made for the camps. These are three and one-half miles distant, nearly three miles being over a buckboard road where most of the members may prefer to walk, both for pleasure and in order to botanize.

The eleven cabins at the pond, built of logs, are comfortable, clean, dry and well-ventilated. The clearing is bounded on three sides by the unbroken forest, and on the northeast by Rowe Pond, on which good and serviceable boats are kept for the use of guests. This beautiful sheet of water is about one and one-quarter miles long and is 1,206 feet above sealevel. Four smaller ponds are within easy reach. Bean Pond to the northeast and Clear (or Mill) Pond to the southward are each about three-quarters of a mile distant. Jewett Pond to the northwest is so close to the foot (or "Basin") of Rowe Pond, that it is almost a continuation of it, while the small and bog-bordered Brandy Pond, abounding in water-plants, is hardly two hundred yards from the main pond, to the northward. All are reached by good trails starting at different points on the shore of Rowe Pond.

VIEW FROM BASIN, LOOKING THROUGH NARROWS

The old "Canada Road," long since abandoned, can still be followed as a trail through the forest. At one point it is scarcely one hundred feet from the western shore of Jewett Pond. It usually affords good botanizing. About three and one-half miles away, to the northwest, are the Carry Ponds

Camps. Parties desiring to visit these, or to make any other extended trip into the forest, can obtain guides at reasonable rates at the Rowe Ponds Camps. Each member is advised to bring a pocket compass.

The meeting will continue until Friday or Saturday morning, when members can leave in time to get the afternoon train from Bingham.

RATES.

M. C. R. R. One and three-quarters cents per mile (to Oakland), from the following stations: Portland, Cumberland, Lewiston, Wilton, Farmington, Readfield, Brunswick, Gardiner, Hallowell, Augusta, Waterville, Fairfield, Skowhegan, Bangor, Orono, Ellsworth, Washington Junction and Machias. Tickets will be sold from the 2nd to the 6th, and will be good for return until July 10th.

SOMERSET RAILWAY. Oakland to Bingham and return, the regular rate of \$1.90.

BINGHAM HOTEL. Supper, lodging and breakfast, July 2-3, \$1.50 for one in a room; \$1.25 for two in a room.

MR. HEALY'S TEAMS. Bingham to Rowe Pond and return, including luncheon on July 3, and transportation of baggage, \$2.25.

This rate applies only to members who go and return at the times mentioned above. Those who intend going either earlier or later should write Mr. A. L. Healy (P. O. address, *Bingham*, *Me.*), of their intentions at least three days in advance.

ROWE PONDS CAMPS. Not over \$1.25 per day, including boat.

The wilderness is calling us,
We cannot answer "nay";
We'll gladly leave the dusty streets
For this, a holiday.
Beneath the leafy canopy,
Where soughs the woodland breeze,
We'll wander o'er the winding trails
Among the forest trees,
And breathe, in Nature's solitude,
That balsam-scented air,
For which we yearly long and wait,
Though often unaware.

The Eighteenth Annual Meeting.

The Josselyn Botanical Society of Maine will meet at Gardiner, August 7, 1912, for three days' work in the field. Hotel rates will not exceed two dollars per day, and we hope to secure reduced fare on the Maine Central Railroad from all points.

The summer meetings of this Society, since its organization, with three exceptions, have been held in June or early in July, and these three were on or near the seashore, so that this is the first opportunity offered for the collection and comparison of plants of the interior of the State in the month of August. This will afford a series of flowering plants differing much from those of June or July. Make your plans now to attend, and further notice, with additional information, will be sent two weeks previous to the meeting.

EIGHTEENTH ANNUAL MEETING

OF THE

Josselyn Botanical Society of Maine

AT GARDINER AUGUST 7-10, 1912 The Josselyn Botanical Society will meet at Gardiner, August 7, 1912, the meetings and field work to continue during the remainder of the week. Botanists are constantly finding surprises in the ever-fruitful valley of the Kennebec, and the pleasant city of Gardiner is admirably situated as a base from which to explore many interesting localities. Outside the immediate vicinity of the city, with its river banks, hills, meadows, streams and ponds, excursions by trolley and carriages have been planned to reach unexplored lakes, bogs and rich woods.

The committee again call attention to the fact that, with one exception, all previous meetings of the Society have been called much earlier in the season, and at this time, therefore, an entirely different series of flowering plants will be found.

The headquarters of the Society will be at the Johnson House, where accommodations will be provided for members and guests at \$2.00 and \$2.50 per day.

Tickets may be obtained at all stations of the Maine Central Railroad for Gardiner and return for one fare and one-third, good to return till Monday, August 12.

Residents of Gardiner and others interested are cordially invited to attend the meetings and join in the field work and excursions of the Society.

The following program is a part of the report of the Committee of Arrangements, and it may be modified to any extent by the Society to meet conditions:

- Wednesday, Aug. 7, 2.00 P. M. All are urged to be present at this hour at the Johnson House, to accept the invitation of Mr. and Mrs. Robert H. Gardiner to visit their house and grounds during the afternoon.
 - 8.00 P. M. Business meeting, by invitation, at the residence of Mrs. H. K. Morrell, 210 Main Ave.
- Thursday, Aug. 8, 8.30 A. M. Take cars for "Tacoma" for an all-day excursion.
 - 8.00 P. M. A short talk will be given by some member of the Society on some plant family of special interest, and this will be followed by examination and comparison of the collections of the day.
- Friday, Aug. 9, 8.30 A. M. The day will be devoted to carriage drives to Nahum-keag Pond, in Pittston, and other localities of special interest.
 - 8.00 P. M. Business, followed by a short talk on some plant family and informal discussion.
- Saturday, Aug. 10. Short trips in the vicinity of
 Gardiner and such other matters as
 may be arranged by the Society.

The Nineteenth Annual Meeting of the Josselyn Botanical Society of Maine will be held at Thomaston, August 12-16, with headquarters at the Knox Hotel.

Further notice, with program, will be sent to members, and to any persons interested, on request, at least two weeks previous to the meeting.

ANNOUNCEMENT

OF THE

Nineteenth Annual Meeting and Field Day

OF THE

JOSSELYN BOTANICAL SOCIETY

OF MAINE

6

AT

THOMASTON
AUGUST 12-16, 1913

THE annual excursion and meeting of the JOSSELYN BOTANICAL SOCIETY this year will be on the shores of Penobscot Bay, a region which many members have expressed a desire to visit. Headquarters will be at the Knox Hotel, in Thomaston, and many excursions have been planned by trolley, carriage and boat.

The places of interest are so many that the time at our disposal would be quite inadequate for each member to visit all the localities, and the committee wish to divide those in attendance into small parties in order that a larger field may be covered and much more be accomplished. The local member of the committee will be prepared to suggest plans for excursions, and to provide guides as far as possible.

Accommodations may be had for members and guests at the Knox Hotel at \$2.50 per day.

Tickets may be obtained at all stations of the Maine Central Railroad to Thomaston and return for *one and three-fifths fares*.

Members should plan to reach Thomaston not later than six o'clock, Tuesday evening, August 12th, to be in readiness for the first business meeting.

The following announcement is offered for the evening meetings, and for the first Field Day. Plans for subsequent excursions and field work are in the hands of the committee, and will be announced at the meetings.

- TUESDAY, Aug. 12. 8.00 P. M. Business meeting.
- WEDNESDAY, Aug. 13. An all-day trip to Mount Megunticook in Camden. The ladies to Mount Battie.
 - 8.00 P. M. Business meeting.
- THURSDAY, Aug. 14. Excursions and Field Work.
 - 8.00 P. M. Prof. M. L. Fernald will give a formal talk on "The Coastal Plain Element in the Maine Flora,"
- FRIDAY, Aug. 15. Excursions and Field Work.
 - 8.00 P. M. A conference is called to consider the organization of a State Scientific Association. The subject will be presented by Mr. N. W. Lermond.
- SATURDAY, Aug. 16. Such field work or excursions as the society or members may arrange.

Josselyn Botanical Society.

The meeting of The Josselyn Botanical Society will be held at Manset, Mount Desert Island, August 4th to 8th, 1908. A reduced rate of \$2.00 per day for board and lodging has been granted us by the Stanley House and reduced railroad fares will be arranged for. This is an exceptional opportunity for our members to enjoy an outing on the historic island of Mt. Desert at a price most reasonable, considering that the meeting occurs during the height of the summer season.

A number of interesting trips are planned and it is hoped that many members will avail then selves of the opportunity. Kindly reply immediately on the attached postal card, stating whether or not you think you will be able to attend the meeting, as the committee wishes to reserve accommodations for the members at an early date.

Tref. J. F. Callins.

Josselyn Botanical Society.

OF MAINE.

All members intending to be at the meeting should plan to arrive at Manset on the afternoon of Tuesday, August 4, planning to leave their homes in season to get the 3.30 p. m. train from Bangor to Mt. Desert Ferry where connections will be made with a boat arriving at Manset at 7.30 p. m.

Reduced rate tickets will be sold by the Maine Central Railroad and by the Bangor and Aroostook to Manset and return. The Maine Central has granted ONE FARE rate from Portland to Manset and return and a one and one-third fare rate from other stations. The Bangor and Aroostook will sell a reduced rate ticket from Houlton. These tickets will be on sale August 1st to 4th, good to return until August 10th.

Reduced rate of \$2 per day at Stanley House, Manset.

The following preliminary programme has been arranged: Meeting of Society, Stanley House, 8.30 p.m. Tuesday, Aug. 4th; excursion to Great Cranberry Island, August 5th, meeting of Society in the evening local trips along the shore from Sea Wall to Bass Harbor Head: August 6th, excursion to Seal Cove Pond: August 7th, other plans to be arranged as circumstances warrant.

Members are urged to make every effort to attend this meeting as it promises to be of unusual interest. Bring your Manuals and also secure if possible, a copy of "Flora of Mt. Desert," on sale by Mr. E. L. Rand, 53 State Street, Boston, Mass.

Write in advance engaging your quarters at the Stanley House, Manset.

Very respectfully

ORA WILLIS KNIGHT

Chairman, Committee on Arrangements

Dear Collins; any data about the programs of the Joseph meetings 18495-1899? The original records are lost, & Ed & Lare trying to replace them. 117 Chardler St. C. H. Knowlton Boston, July 20.

THE SPACE BELOW IS FOR THE ADDRESS ONLY.

J. Franklin Coll Care H. Metcalf 468 7 Bureau of Plant Industry Washington

JOSSELYN BOTANICAL SOCIETY OF MAINE.

117 Chandler St., Boston, Mass.

July 22, 1908.

Allow me to remind you that your dues to the Josselyn Botanical Society for the present year are unpaid. Please remit promptly.

ing a full account of the annual meeting, and a list of all the plants observed. This forms a valuable permanent record and it is hoped to continue such work. In order to do so, with our limited membership, it will be necessary for all members to keep up their dues. Even if you are not able to attend the meetings, you can still show your interest by helping to support this part of our work.

Clarence H. Knowlton,

Treasurer.

Current dues \$.50
Arrears

Josselyn Botanical Society of Maine.

The Society will hold its Fifteenth Annual Meeting at the Peaks Island House, Peaks Island, Portland, June 28 to July 2, 1909.

TRAIN AND HOTEL ARRANGEMENTS.

Trains arrive at Portland from Bangor at 5.25 and 5.55 P. M. Trains arrive at Portland from Skowhegan and Farmington at 5.20 and 5.35 P. M.

Tickets should be purchased for *Portland and return*, at the usual reduced rates. These may be obtained at the usual stations, June 26 to 29, good for return till July 10.

At Union Station take red cars, taxicab or hack for the Casco Bay Line of Steamers, which leave Custom House Wharf for Jones' Landing.

Allen's Baggage Transfer Co., with office in Union Station, will deliver baggage at Custom House Wharf, where it must be transferred to Steamer.

Special rate at Peaks Island House, \$2.00 per day. Ralph E. Rowe, Manager, Post Office, Peaks Island, Maine.

EXCURSIONS.

The following excursions for collecting are suggested: One day to Pine Point and Old Orchard. Among the plants that may be found here are Artemisia Stelleriana, Artemisia caudata, Rumex persicarioides, Polygonum exsertum, Ophioglossum and Hudsonia. One day to Falmouth and Cumberland Foreside for Thalictrum dioicum, Hypericum maculatum, Carex brunnescens, Carex maritima, Carex rostrata, Carex retrorsa, and many others. One day at Cliff Island or Long Island, where may be found most of the shore plants, and Holcus lanatus, Elymus arenarius, Convolvulus repens, Veronica longifolia, Centaurea nigra, etc.

Short trips may be made on Peaks Island, to the Cape shore, waste places of Portland for introduced plants, or other localities near by.

Some member of the Society who is familiar with the locality will act as guide on each excursion.

On Monday evening, June 28th, a short business meeting will be called at 8.30.

On Tuesday evening, June 29th, an address will be given by Prof. Merritt Lyndon Fernald, of Cambridge, on "The New England Flora of the Future, or Changes in our Flora due to the Destruction of Forests."

The other evenings will be devoted to business of the Society and to informal talks by Prof. Fernald and others.

Members who expect to attend are requested to report at once to Mr. Rowe, or Dr. D. W. Fellows, Y. M. C. A. Bldg., Portland, so that hotel arrangements may be completed.

EDWARD B. CHAMBERLAIN, Secretary,
Cumberland Center, Maine.

has written me of his recent trie to lainter's Arberetum.

We also says that you can give no further information concerning it. I would very much like to have just but it can be reached from hiladelphia who in the proper variant to get in touch with before going there, and things of that sort.

For any there is consthing published about the information and more. If so I have you can give no the reference. There is no special harry about answering this latter as I do not entitlipate visiting the place before next spring or summer at the earliest, and perhaps not then if time is to much at a premium. I have intended for some time to visit the place at the first open-tumity.

I suppose you are still working on the mosses and enjoying it as much as ever I wish I had nore time for it, or, I had better say, I wish I had some time for it.

the hort regards.

Poroct Esthologist.

Dear Mr. Kaiser:

I have your letter of the 23d of November, also the publication which you so kindly forwarded for me to examine. I will return it to you within a day or two. I notice that it is written by Dr. Conard, who is a particular frined of mine. I would not be surprised if I had a reprint of this article which he has already sent me, but which at present is among my unorganized pamphlets; if not, I am pretty sure I can get a copy directly from him. I want to thank you for you kindness in sending me the information in the letter. I am very glad to get it.

Very truly yours,

Forest Pathologist.

[Sec.] Goorgo D. Teikor.

Doar Mr. Kaiser:-

Thank you very much for your letter of the 22d concerning the large oaks in New Jersey. I like to have memoranda of this sort, for it semetimes happens that I have an opportunity to look up some of them when I am in the vicinity of large or interesting trees—something I like to do.

I would be very glad if you would-some time--give me more precise directions
for finding the Ut. Royal, Lontua. and
Columbus trees, also the black valuat
I take it the statement that the Salem
tree is in the Feeting House yard will be
sufficiently definite. I presume this
means the Friends Meeting House (?)

I would particularly like to know how near I can get to each by any public conveyance-railroad, trolley, bus, etc.

I hope the giving of the desired information will cause you no inconvenience.

Sincerely

PHILADELPHIA sot Xourt are, Sementon, Ba. Dear Professor Collins, ensuerin for last letter. To here ten exceedingly buy and the days have slipped by smooth on my using at 'on of it. Ao2 West 103d St. N.Y. City. Feb. 23d 1899.

Dear ir. Kennedy

those specimens of Grimmia from Mt. Washington that Dr. whens collected wou will see that his drawings agree with my rough sketches of my sections, only that several of mine were from larger older leaves and showed the cells less frequently bistromatic, the upper small leaves being like his drawings. I have made tracings of them and will and you to return them to him when finished. I think you are quite right that it is not G. caespitica unless our specimens of (G. sulcata) are misnamed. It agrees better with Limpricat's drawings and description than with our Eu. specimens, It will be well to describe and figure it in Rhodora and I will gladly yilled that privelege to you and Mr. Collins, if you will name the specimen after its discoverer Dr. Evans, if it should prove to be new.

una vocanna para dicumut nai pavo je dia. Postator vojavo j Dear Dr. Kennedy: -

I am sending under another cover a pamphlet which may be of some interest to you. I would like to ask if you think the last statement on page 8 is true. I question it. You will find the measurement of this pine on page 15.

I have already proved that Mr. Mowry's km statement at the bottom of page 17 is untrue, as I have recently measured two pitch rines in R. I. which are larger than the one mentioned, at least in girth.

Those you are all well and enjoying life in Milton.

I have been up to the Arboretum today looking over the chestnut plantations for the disease. Am glad to say that I found none, the tree infected in the winter having been cut down.

G. Kennedy

Dear Dr. Kennedý:-

Within a few days after it came Mr. Preston and I had planned to go out to Chepachet and again see the big pine. Mr. Preston tried to get you on the long distance telephone, but you were away for the day when he telephoned. He wanted to tell you about our planned trip for the following day and see if you and Mr. Faxon could arrange to join us. As it happened it rained and we did not go. Since that time I have been unable to see any clear day for such a trip until now, so I have not written you. At the present time it looks as if I could go out with you on either Thursday, June 2, or on Monday, June 6. Are either of these dates satisfactory to you and Mr. Faxon?

Chepachet is up in the northwastern part of the state, about an hours ride from Providence. Trains leave Providence at 6.40, 8.40, and 11,45 a.m., for Oakland, the nearest R.R. station. The tree is about 3 miles from the station. Trains return at 12.55 and 4.35 p.m. On and after June 8 I could arrange to go out with you almost any day, if I knew about it a few days ahead of the time. I do not expect to start on my summer's work until the latter part of June of the first of July, soperhaps I can get up to Readville some time in June. I don't know yet whether I shall remain about Providence during the whole of June.

Am glad to hear that you are all in good health. We are about as usual here.

Readville, Mass.

30 May 1960 Dear Collins, mortagon t I have arranged to Start for Fetersham mass on hursday fine 2 T I shall return on Treesday June 7th Then on Freday June 10th I gotothe White Mts, to return fine 18th so if the above plans are carried out I do not be how we can arrange for a Chepacher Hay at present: However if the trip of frue 10th 18th is given up or modified I will certainly let you know.

24 Jan. 1912.

Dear Dr. Kennedy: -

Weeks ago while I was in Washington. I was there to attend the American Association meetings and also a series of conferences which had been called for all men connected with the Office of Forest Pathology. These conferences extended over nearly or quite four weeks, much longer than we had any of us anticipated. They were very profitable conferences for all of us, however, as each man took up in turn his own work explaining it to the others; the others in turn criticising, suggesting, or questioning, from their own point of view. All the men connected with the office were on hand, including four from Washnigton or eastward, as well as the western men from Nebraska, Montana, Wisconsin, California, and New Mexico.

I shall be very glad to tell you more about the work at some time in the near future, I hope. I shall be very glad also to lurch with you at the first opportunity. I trust we can arrange a mutually satisfactory date before long.

I returned from Washington only last Sunday evening. To now expect to be in Providence most of the time until I go into the field again, probably three or four months hence.

Father cannot see very well now and is becoming very deaf.

Mother is not able to get out very much, expecially since freezing weather arrived. Otherwise things move on about as usual with us.

We all extend the heartiest greetings of the season to you and yours. Cordially,

BOSTON, MASS.

AND

MILTON, MASS.

Boston, Mass., 20 January, 1919.

Professor J. Franklin Collins,

468 Hope Street,

Providence, R.I.

My dear Professor Collins:

You are of course aware of the existence of a committee of the N.E.Botanical Club, which has as its duty, the collection of material for a new edition sometime of the metropolitan Park Flora. Of the work which has been done so far one of the plantshave been left out of account entirely, the "Cryptogams". This has been done because it was our impression that there are not enough individuals interested in flowerless plants to make it feasible to include any of the different classes of them in the "Flora".

Now that you have taken the responsibility of the Curatorship of this class of plants in the club collection, I feel that it is my privilege your opinion in regard to this. To you think that it would be worth while in getting out the new edition to attempt to incorporate anything but flowers. plants, ferns and their allies,

Yours very truly,

Statement There ..

Januer: 21, 1910

Mr. Mathenlel F. Midder, In tate Strock, Boston, Lass.

The state of the s

roff value to the desirebility of including the lower cryptogens in the name oction of the Lotropolism form form

As you in Table law I we cannot dry more ble Survivor without by the office of contains and without by the case of or contained of the collection of crypton in the she did terberies. Franklin Collins

Fasadena, Californ.

Dear Mr. Collins.

Your letter was forwarded to me in

Frontaders where is am spending within will explain

why the offering you want is not available.

Probably I can send it to you must string when

I return East. I I send instead a few

Collifornia mosses that I have collected in

this locality. Perhaps they may be of interest

to you. Jone of them you will note: are

not named. If you can determine them

for one I shall appreciate it very much.

Can I get you anything if the way of bal. I mosses.

Chester C. Knigman.

324 North Roymond Ave

Mr. C. C. Kingman, 324 North Haymond Ave., Pasadena, Cal.

My dear Mr. Kingman:-

Your letter and specimens came today. Thank you for both.

I am spending most of my spare time on the perera (atharineea, logonatum, and folytrichum. I would be very clad to get Californian specimens of these genera, named or unnamed, common or uncommon. In return I think I cansend you samething in the way of mosses in exchange, although at present I have no list of my duplicates, but hope to have one when I can get my duplicates organized.

I would particularly like to get the different common forms of the corron olytrichum commune. If you can get hold of any of these perhaps we can effect an exchange when you get back East again, or even before that.

Very truly yours,

Marked Share Core Conduder Pasadena, Cal Jan. 23. 1911. Dear Un. Collins. I enclose the Jan. offering as requested, also the hepatics offered last Nov. The tossombronia is very from but is all I you stated in your letter a year ago that you were anxious to get bal specimens of the genera Catharnies, Pogonatum and Polytrichum. I have not been able to find a trace of any of these after a year's rearch, although they are reported from the northern first of the state in the I should be plad to see your exchange net. I can now offer some 40 bal. mosses. Do you want a got in determining Barlin los? I have collected a lot of them and they are a mean lot . I think. yours truly.

6. C. Knigman

11 Lovelle It. Reading, Wase. Oct. 16, 1911. Pry. J. F. Collins. Dear Lir. I would be glad to have your oficerion on the world yelicher tari in a min, in, in limited yestil. we want en and the orate terminal but I me at finisher with that I returned from Existernia Est Ming. I brought back some 60 species of balifornia mosses, besides a munior of Oregon and 48 ritish Estumbia mother. the latter is collected in route. I also have numerous lichens and hepatics from the Pacific Coast. you wrote me some time ago. that

you have of service of Portricianie from the Parific west. I have P. fileferm (storie from contlume sal. and severe species from Britis Communice merry Oligotricum paralelem. also some interesting wan, forms of P. iswermer from massacretics I should be on to send you my of there if they interest you. I was invited to the ineiting of the View Organice Botuneis Cino, e week ugo. and was sorry not to see you there as I had hopen to weit you again. Jours thing. Co. C. Kingman.

468 Hope Street, Providence, R.I.

Oct. 21, 1911

Mr. C. Kingman, 11 Lowell St., Reading Mass.

My dear Mr. Kingman:-

having a vacation, and only this evening have I had a chance to look at your moss. Itis Polytrichum juniperinum Willd.

I was very sorry to be unable to get to the last

New England Botanical Club meeting. I tried my best to
get there but the nearest I could get to Boston that

evening was New York City.

I shall be very glad to see the Polytrichaceae that you speak of, particularly the forms of Pl commune from Massachusetts.

Very truly yours,

11 Lovell St. Reading, Mass. Dec. 6. 1911. Dear Mr. Collins. Some days ago, Mis Dunham sent you a specimen of Polytrichum, collected by me, that interested you. Last week I visited the locality again and collected a lot more of it and so I am sending you some of it. The specimen A is the long slender form with appressed leaves, while I more nearly resembles the ordinary found, but in this specimen there are many intermediate forms. It is for this reason that I am suding you the specimens Both A and B were collected within a few feet apart- They grew in a very wet bog, associated with Iphaguma

Torreyamme - so wet that the roots of the Polytrichum were in water for part of the season at levet. It was very abundant over quite a large area. It seems to agree microscopically with P. commune as far as I can see, but it looks quite different, both in the wet and dry condition: I have recently found Polytrichum gracile at Webse, Mass. and my determination has been verified by Mrs. Dunkam. yours sincerely. C. C. Kingman.

468 Hope Street, Providence, E.I.

9 Dec. 1911

Mr. C. C. Kingman, 11 Lowell Street, Reading, Mass.

My dear Mr. Kingman: -

I want to thank you most heartily for the specimens that you so kindly sent me a few days ago. When I got them it looked as if I might get a little time to examine them critically within a few days, but now something has come up that will preclude my setting a chance to examine them as I want to until after the middle of January, at which time I expect to return from Washington.

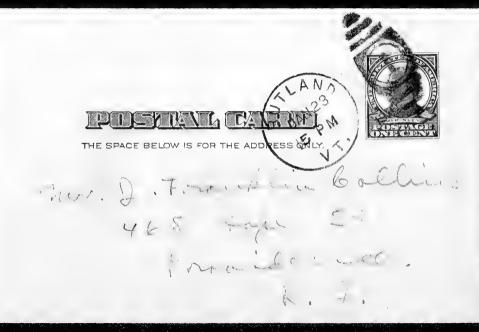

Very truly yours,

J. Franklin Collins . Eng Dear Sir: -I more hardens request for specimens of the Polytrichum commune group in your interesting article in the July Phodora", and take fleadure en bendene you a Speamen from here. Ifons benerally,

A. Holly E. P.

Farmington, Maine. Dear Collins: July 15, 1897. your letter is at hand, also the Bulleting. I return your list herewith, having marked the plants d should like: dwill return the Bulletin in a Lew days, as soon as right time its look it over again. A reactied home them Faturday noon, and went to work Tronday morning. I have spent all my eninge and extra time on my expecimens and correspondence, and have still lots of work ahead. I wint square up y work so as to study some German before fall. Have had one interesting

plant brought in to me - Penstemon lawigatus. Shall you spend your vacation at Il. anson? 21 20, can't you drive over. and see us again? The stræde all enjoy a væstt all send their regards. This many diames, for your timender, I remine Finance of the party of 6. H. Knowlton

Farmington, The, Try dear Collins July 20, 1897 your letter was received yesterday, also the package of specimens. Please accept my thanks for their. They are very interesting and will supplement my -collection to quite an extent I was particularly glad to have some of them for comparison with our Maine plants. They will also aid -ne in identifying of the ful plants I only wish I had some plants which might

be of some me de que. Ci will keek my en ike to Bry offited on our Diddie. back tick. Fare just minned for an exclusive with Therein of The -also received a letter from Chamberlain yesterday He is struggling with the I expect to spend Sunday in Phillips, but it is a poor region botanically. I hope your vacation will be a pleasant one, and should be very glad to see you here, if possible. Hanking you again for your kindness dremain yours sincerely, C. H. Temoulton

groton, Mass, iller collins, Jan. 14, 1956. There ist discovered That you - Wine "Lunk and i, are another in mittee of arrangements for mett sumer's meeting of the Jossely Society Now it seems geographically impossible to have a full meeting of the com, so I am writing to you twain for ideas. I shall probably go dow to Providence the last

of March, and I can fix up finalities with you then, but I think me onglit to get some ideas I had thought of the morther part of Exford s., say Bettel, as good rew ground for exploration, not too inaccess ible, and for time, July 3-6 inclusive. Hr. Fellows thought that a good region. Is there anything to expected in Central Maine, say Pittsfield, or any other place mear!

Write and tell we what you think, and then we will try to decide. It is very whilely that I shall attend, as I am planing to work next summer, but I will try to fix up arrangements. Have you any ideas as to program? One speaker, or at most, two, should suffice. Most succerely, Clarence H. Knowlton

Groton, Mass., Jan. 24, 1906. Dear Collins: Miss Clark and I are both interested in your idea about the Home Roud Camps, and & think you had better write then about rates for July 3-6, as you songgested. As we may not be present in persons such an arrangement could be made much easier than the usual one. The only question

is how many plants me can find. My experi ence with such places has not been very succeasful, but the plants may be new to the majority of the Society. de find that I can be in Providence Feb. 11, and I hope we can settle most things at that time. Where are the lieadquarters of the Somerset R. R.? Didn't the Society west at Bighan once? Very truly, C. H. Knowlton

groton, Mass., Feb. 1, 1906. Dear Mr. Collins, c as I can't get off for the Club meeting this worth, a will write a few lines in reference to your letter of yesterday. elt seems to me a good idea to write and get Mr. Healey's terms, if you can do so conveniently, so we can know the exact cost. It is evidently a good confortable place for such a sojour but will the flora be extensive enough to satisfy the crowd? I am going to write to Dr. Fellows about it, and get his views, as he without Bingles views, thank you very much for writing to Mr. Maffield, Histerns dre very reasonable indeed. I will try to look in 1. 1 before church, fairly early (say 9) on F. b. 11, and Strust we san reach some final conclusions them. Very truly, C. H. Themoulton

Dear Mr. Collins, . What you have better than garaft, and of don't see any chance for improvenorton as soon as I hear from Dr. Fellows about the tickets. of will ask Mr. norton to have a proof sent to you. Sincerely i. H. Knowlton

J. Franklin Collins 468 Hope Ets Providence B.)

321 Columbus ave, Boston, Mar. 25, 1906. Dear Mr. Collins, _ I have just entered on a new occupa-I am sure I shall like it very meh underd, though I stall wise the long botained vacation in summer. I shall try to keep up, however. I enclose a prospectus which I think covers the ground, though it can easily be made in ear

less definite, as you think best. The Towerset R. R. won't come dopoin below #1,98 round trip from Cakland. Knill send it the amount to Mr. norton, as soon as I hear from you. Ithink you had better write the final prospectus, if posible, so as to add more local color. That half-tone picture of the camps would prove a good drawing card, & think. most sincerely, C. H. Knowlton

73 - cton, 2pr. 15. Dear Collins, of meant to have the half-tone printed as part of the final amount. of Mr. Maxfield still has it he will probably be glad to mail it to the secretary for that purpose. If not your suggestion is all right but I thought it would make the circular more attractive to morporate the ent, Will drop a line to her Norton. Liverely C. B. X

POSTAL CARD

THE SPACE BELOW IS FOR THE ADDRESS ONLY

Mr. Clarence H. Knowlton, Hingham, Mass.

Dear Knowlton :=

I have looked up the possibility of the Club dinner on May 30th. There seem to be two possibilities inso far as I have investigated. At the Crown Hotel they will give us a room (for which a extra charge of \$2.00 will be made) and a nenu as follows at \$1.00 a plate. Soup, meat (either turkey, chicken, or beef), two vepetables (potato and one other), ice creem, cake, and coffee.

At the Hotel Rewman, on Abern St., (a side street) they will give the following menu (including a small private room) for \$1.00 each:— Soup, meat (turkey, chicken, or beef), fish (whatever kind is on the bill of fare for the hotel in general that day), potatoes (and one other vegetable), salad, ice cream, care, clives, radishes, cheese, coffee. As I understood it it will not be necessary at this hotel for every one to have same kind of soup or the same kind of meat, provided there is some other kind, which they prefer, on the menu for that day, as there would undoubtedly would be, if the kind selected beforehand was not to their liking.

Either hotel is within half a mile of the railroad station. The Crown is on Weybosset St., one of the two main streets of the city, and the Newman is on Aborn St. between Westminster and Washington Sts. Both rather centrally located.

Please let me know how I can help you further, and when you would like to have the outlines of the trips for the squads.

Cordially.

Hingham, Mass, May 8, 1911. Dear Collins; John prompt letter of will talk it over with the committee, If the Newman is as good as the bill of fare sounds, a think that would be our best rendez-vous. Athuk we prefer table d'hote, t do d'inderstand it would be served the private room? We ionght to return at 7,30. Now can you send ne a list of 10 or 12 places which we can put on the program

cement? If there are enough people me could strung mit far as Hesterly. Then as a get can plan Sincerely C. H. Knowled

Dear Collins; Have you any species of Phragmity from R. D. or any other n. E. State? I want to work out the new England distribution of this grass. If you have any data, Iplease bring it with you Friday, if you can commented Sincerely, C To Knowlton

Rrof. J. F. Collins 468 Hope St. Providence R. Q. Dear Knowlton:-

Your letter at hand. I understood that the dinner would be served in the private room at the Newman. I will make sure of this point later, however. I would suggest the following trips as a preliminary list. I may want to modify it a little when I can have a chance to takk the matter over with Hope and Preston. I have not had a chance to see either of them since your letter came today.

Trip 1. To Diamond Hill, Cumberland, Providence, Co.

Trip 2. To Copper Mine Hill and Sneech Pond, Cumberland, Prov. Co. It would be much better on these two trips (1 & 2) to leave Boston on the 8.20 train, via Franklin. Could reach Providence from either place at 5.28 p.m..

Prip 3. To Snake Den, Johnston, Providence/Co.
Trip 4. To Westerly, Washington Co. Stay on train at Providence,
Trip 5. To Greene, Coventry, Kent Co.

Trip 6. To Oaklawn, Cranston, Providence/ 60.
Trip 7. To Warwick Pond and Spring Green, Warwick, Providence/ Co.

Trip 8. To Moswansicut Pond, Scituate, Providence Co.

Trip 9, To Nayatt, Barrington, Bristol Co. Trip 10. To Mt. Hope, Bristol, Bristol Col

Trip 11. To Newport, Newport Co. Trip 12. To Portsmouth, Newport Co.

All of these trips would enable the members to reach Providence before 6 p.m. on the return trip. For all except the first two it would be best to come to Providence on the 8 a.m. Colonial Trips 3 and 8 would involve a wait of 40 minutes in the city before a car would leave for these places. Trip 5 might have to be abandoned if the Boston train should happen to be 4 or 5 minutes I late, as, according to schedule there would be but 7 minutes between trains.

Cordially.

J L. KNOX

Dear Collins; May 25, 1911.

The following men are sure of going with with me Tuesday

R. C. Bean, R. H. Hoodward

R. a. Hare, Fernald

a. L. gunderson, Kindlow Miegand, Knowlton.

F. S. Collins will go on an independent trep with a companion, of Harrison of his wife are planning to companion to companion to companion they have planned. I suppose Floryd will go, or grigg of Pond are possibilities

I think you will not

need to plan more than 10 excursions at the outside, though a fair day might bring out mexpected numbers. These returns funda good mucleus for the trip, on all to put at least 300 spacement to Little Phody's credit I have been away all the week on wex pected business, or & should have written earlier Very succeedy C. H. Howlton Dear Knowlton: -

I inclose general outlines for 15 trips, in duplicate.

The last one has been added at the suggestion of W.W.Bailey.

Confidentially I don't think the whances are in favor of his making the trip, but he might pan out equal to it.

These tries can be cut apart and such of them used as you think best. Some of the longer trips do not leave very much time for collection of specimens, as you will see, and perhaps you will prefer to cut out some on that account (Newport, for instance). I assume that the squads will be chosen by lot, or by some such scheme, and perhaps the You can count on Preston and myself as component parts trips also. of a squads. If it is not contrary to your principle I would suggest that you select one of your members to go to Snake Den (trip 3), and one to go to Moswansicut Fond (trip 8). I will be the second member on one of these trips and Preston will be the second member on the other. This is suggested only because these two trips on the Danielson car are the last two to get started, and it will permit Preston and myself to get all the other squads off before we have to go. Any other way that seems better to you will be equally satisfactory to me, and, I am sure, to Preston also.

In case an unexpectedly large number should come down we could take at least two more squads out on the Danielson dar and drop them at different places. One squad could also be sent out to Lincoln. This town is not included in the zhwer outlines, as it is better-known than the others.

I would suggest, for economy of time, that every member know and have the slip for his trip in hand before he reaches Providence. This will be very essential with trip 5.

Let me know any further suggestions. Cordially,

- Trip 1. To Diamond Hill, Cumberland [Providence, Co.]

 Leave south station, Doston, at 8.20 a.m. (Back Day at 8.24);
 due at Grant's Hills, R. I. at 9.47.

 Collecting field suggested:— On the east side of the D.H., on and about the hill and to the southward.— Can leave Grant's Hills station for Providence at 4.52 (flag station); or Piamond Hill St tion, 1.2 miles south of G.H. station, at 4.54 (flag station): or Arnold's Hills, I mile south of D.H. station at 4.57; or Arbote Run, 1.3 miles south of A.H. station at 5.01 p.m. Due in Providence at 5.28.— Notel Perman is about 6 minutes well from the station—— up Washington street to Aborn, and half a block to left.
- Trip 2. To Copper Wine Will and Sneech lond, Cumberland [Prov. Co.]
 Leave much metation, Boston, at 0.20 (mach map at 0.04); due at
 Diamond Will station, L. I. at 9.40.
 Route to Sneech Cond, via highway, is as follows:-From Leaved Will
 station to west for about 900 pla, to the main road; so the south
 cast on this road for a little core than helf a die to the cross
 road. The sound is almost exactly two miles in a straight line
 due west from this point. To read it take the most to the west
 from this point for about one-third of a mile to the triple fork
 in the road. Take the kathadarakaran right hand road (almost due
 west). Malf a mile for their thir to be force. Tither for will
 leads to the southeast edge of sneech load. The left are one
 is aborter and about the brow valley, the right is little longer,
 a over to be "line lill. The north of one of the load is steep
 and rocky, the worthwest and work is lost and boars. From the
 southeast corner of the load the road runs west-continued, in less
 than half a mile, to the troller line tolkness bonderet and
 lawbucket. Luarter of a sile west of the west above of the hond
 there is, north abouth road witch runs (to the conth) to the
 same troller line, but at mile a point about awarter of a sile
 routh of the other road. Netween these two roads there is mather
 one running first west and the non southwest for three-quarters of
 a sile to the Lanville D.R. station riese a time of weather
 one running first west and the non southwest for three-quarters of
 a sile to the Lanville D.R. station riese a time of waxing permits
 return can be rade by the trolley mentioned by channing in
 Favtucket, but special inquiry and better be rade us to running time.
- Orin 3. To Dualte len, Johnston, L. roy. Co. 3

 Colonial Express to Providence, Prolley can leaves con Market appear and Canal it. at 9.10 after Terro is cerrit in a funde len road, a fer in the road require worth from the joint where the car returns to the bickway after indicate village. The India the laterante loads, but west of locatest village. The India ten road runs worth for half a mile, then turns east thout where it crosses a brook. Malf a mile farther cost the road crosses another brook (the enske len brook). A few puriss equal this brook is ere is a wood road running had north though the woods for a mile or more, slong the west evenly base of the engle len ridge. The return cur leving the enalts len road in the vicinity of 4.40 and is due at Aborn it. at about 3.35. Notel Herman is helf a block to the right. (math)
- Trip 4. To Testerly [Lack incton 60.]

 Stay on the John in Threes. The at lesterly at 9.58. A mile (or loss) back (east) on the north side of the lake are some of the large granite quarries. Two riles back (east) for the station of the north of the land lightway is Charan's lond, and lighty of the station of the product of the land the Empress leaves lesterly at 4.46, due in Irovide ce at 5.55. Total Terman is about 3 minutes well from the station---up mashington at to then half a block to the left.

Trip 5. To Greene, town of Coventry, Kent County.
Colonial Express to Erovidence. Leave Frovidence Union Station at 9.05. Due at Greene at 10.03. Beven-eighths of a mile west of station (along track) the R.P. crosses the Mosup River, and half a mile farther on, on the right, is Carbunele Tond, within half a mile of the Connecticut line. A few hundred yards to the south of the track, and in a general way parallel with it, is the Mosup liver flowing westward into Connecticut.

Connecticut.
Thein leaves Greene at 4.27; due in Providence at 5.25 p.
Notel Dewman about 6 minutes well from the station---up Washington street to Aborn, then half a block to the left.
Special notice.--If the Colonial Express is some three of four minutes late in reaching Providence this trip will have to be abardoned. Greene ought to be a good region to visit, however. Those who are accipted to this trip should have the following points in mind and act quickly in the station in Providence, as there will be only a few minutes in which to make the connections, even if the Colonial is on time:- De at the ear door as you near Providence, in order that you may get off promptly. Go down into the subway (preferably the second one as you enter the station) and injurie of one of the miformed attendants as to how to reach the 9.05 train for Millimantic. May on the train, there will be no time in which to obtain tickets.

Trip 6. To Oaklawn, town of Cranston, Providence County.

Colonial Express to Providence. If the Colonial is on time take the 9.05 train (the Villimentic train) which can be reached via the subways. Inquire of uniformed attendant in subway as to how to mach the train. Be at the con door on the Colonial as you near revidence to at to be able to get off the train promptly. If the train is three or four minutes late so by trolley at 9.30 from the corner of Market Equare and Canal St. Cars run half hourly. Collecting grounds probably best along the brooks in the hills half a mike westerd and beyond. hours. Collecting grounds probably best along the brooks in the hills half a mike west and beyond.

Return can be made from the Caklawn station by steam train at5.38; due in knowldence at 5.25. Noted Neuman is about 6 himter walk from the Union station———— has ington street to Aborn, then half a block to the left. Neturn can also be made by trolley. Inquisabout latter, and as to where to get off at the nearest point to noted Newman on Aborn, t.

P.7. To Larwich cond and Opring Green, town of Marwich, Hent County. Colorial Express to Irovidence. Leave Providence via Buttonwoods trolley car from in front of the Union station at 9.18. (cars run half hourly). Leave car at either Spring Orden or Hoxie. Upring Green Tond is quarter of a mile south west of Apring Orden station, and quarter of a mile northwest of Hoxie station. Earwich Jone is five-eighths of a mile southwest of Hoxie. Little Jand Bond and Tuck fond aream close together, about a mile northwest of Spring Treen station. All four ponds (Warwich the largest) are in the Larwich sand lains. The East Greenwich cars run half hourly along the highway at the western edge of Little Jand Bond, and return could be add by that car line if desired.

Tuttonwood cars leave hoxie (Spring Green 1 minute later) at 5 and 35 minutes past the hour. The in Irovidence about 35 minutes later. Inquire of conductor as to the rearest point to get off for the hotel Lewman on Aborn .t. notel Lewman on Lborn , t.

Trip 8. To Moswansicut lond, town of Scityate (the northeastern extremity of this pond is in the town of Johnston), providence County. Colonial Express to Providence. Reave via Danielson trolley car (cor. Canal St. and Market Equare) at 9.40. Cars run hourly. Leave the car before reaching Morth Scituate (about half a mile) at the point where the car turns 45° to the left from the turnpike in order to go the village of Morth Scituate. Continue afoot along the kirkway turnpike. An eighth of amile to the south end of Moswansicut Pond. On the left of the turnpike (i.e. south) half a mile beyond the pond to the westward there is quite a bog or swamp.

Cars return to the city every hour. Inquire of the conductor as to the time that the cars leave Morth Scituate for the city. Take the car that reached Market Equare at 5.40 p.m. Leave this car at Aborn St. Hotel Mewman half a bhock to the right, from Mashington St.

Crip 9. To Mayatt, town of Barrington, Bristol County.

Colonial Express to Providence. Take the 9.15 electric train from the Union Station. Get "Lone Timets" to Mayatt and return at the ticket office in the weiting room in the station. Then conductor comes to collect the third ticket notify him to stop at Mayatt. (This station may be a requal retop and no notification recessary) Extensive swamp to the southcast along the track. Considerable rich moist woodland to the northward (along the highway). Cars leave Payatt for the city every 15 minutes. The car leaving there at 5.10 is due in Prov. at 5.25; the one leaving at 5.25 (express) is due at 5.48. Botel Meyman is about six minutes will from the attrion---up Taskington (t. to Aborn, then half a block to the left.

Trip 10. To lit. Hope, town of Bristol, Bristol County.

Colonial Express to Providence. Take the 9.15 electric train in the Union Station for Bristol. Set "Some tickets" in the ticket office in the waiting room in the station. It. Pose is about two miles, slightly north of east, from the main station in Bristol. There is a good road from the edutern edge of the village to lit. Hope (which is merely a fill 200 feet ich. Inquire in Bristol at to this road. Perhaps the best collecting will be found between the village and lit. Hope, in the low land, asticularly in the vicinity of the finous Hing hilling cring. Trains return every bur. The me leaving Bristol at 5.20 is due in the Union station, Providence at 6.03. Notel Perman is about his minutes well from the station——up hashington at, to Aborn, then half a block to the left. There is also an bourly trolley from Bristol, leaving at 4.10, 5.10, etc. The running time is not available, but it is undoubtedly lower than that of the electric train.

Trip 11. To Newport, city of Lewport, Lashington County.

Colonial Expects to Providence. Take 9.15 electric train from the Union station. det "Hone tickets" (or perhaps tickets to Newport-inquire) to bristol and return. So to the end of the line in Bristol and change to the ferry boat, which meet to Lortsmuth on the island of Thode Island. Change to the trolley. Due in Newport at about 11.15. It is said to be and collecting about Rasion's Deach and Rasion's lond (fresh water) just north of the beach; also it lung ton and Laradise Locks. The two places last mentioned, as well to the eastern edge of Rasion's Teach, are in the tour of the cain street of Revport (trolley if desired), lungstory a mile for the reach; and Laradise Locks another mile (still eastword). Car leaving Resport at 4.50 is due in Providence Union Station at 6.05. Notel Respons to Aborn, then helf a block to the left.

- Trip 12. To Fortsmouth, town of Fortsmouth, Mashington County.

 Colonial Express to Providence. Take the 0.15 electric train from the Union Station in Providence, Get "one tickets" in the ticket office in the writing room, to Bristol and return. Perhaps ferry tickets also -- inquire. Go to the end of the line in Bristol and change to the ferry boat prossing to Fortsmouth. There clampe to the trolley. It is suggested that the collecting be done in the vicinity of Fortsmouth Grove orat Lauton's Valley (a file further on), or both. Inquire about time of returning cars. Plan to connect with the car arriving at the Union Station in Providence at 6.03. Hourly the instruction Bristol. Hotel Terman is about 6 minutes well from the station --- up Eachington Bt. to Aborn, then half a block to the left.
- Trip 13. To aquentum, town of Mast Providence, Providence County.

 Colonial Empress to Providence. Mr. D. I learce offers to the charge of this parks squad at the Union Station. It may be profitable to spend ant of the day in the woods about a mile east of Riverside Station (also in Mast Providence). Diverside is about a wile and a blaf bouth of Equentum, and can be reached by either electric train or trolley. Electric train leave Riverside for rovidence at 2. 17, 32, and 47 minutes post the four. Due in the Union station, Providence, about 15 minutes later. Electric trains leave aquantum (flag station) at 22 and 52 minutes and each four. Due in Tabulance Chion attion II or 12 minutes later. Also trolley from Liverside, and from main highway mean equantum, but the running time is considerably longer.
- 14. To Jakland and (park ps) Jucker lond, town of Durrillville, Induced County.

 Leave Boston on the 8.04 train for Woonsocket (Back Day 2.08)

 Due Moonsocket, L. I. at 9.35. Thollow for Harrisville, D. T.,

 Leaves Toonsocket (not far from the 1. R. station, and perhaps

 from the T. I. station also) at 10.10. Leave the troller car

 at Jakland (in the vicinity of 11 o'clock) and walk pouth for

 granter of a mile to the D. D. station on the Providence-Lagous

 L. i. empeted that Tr. L. T. Sachtlan will meet the squad at this

 sint and act as saide. The object collecting region from Laff a sile

Mr. C. H. Knowlton,

C/o D. C. heath & Co.,

120 Boylston St.,

Boston, Mass.

Lear Enowlton;

I have a letter from you dated July 12 which did not reach me very promptly, and since it arrived I have been in the field most of the time, and only today have I had an opportunity to look up the matter. I have looked over my own records and specimens and also those at the University, and report as follows:

Iler opace o curs in South Mingston, North Mingston, South Scituate, Coventry and Little Compton. Iler glabra occurs in Richmond, Channock, Exeter and South Kingston. Shannock is on the line between Richmond and Charleston. I do not know whether you want any further points or not. If you do, I shall be glad to supply them so far as I am able.

I hope to see you the first Friday in November.

Very truly yours,

Hingham, Mass. -march 19, 1916 Dear Collins; are there any herbarum sperimens of the plants on the enclosed list, from R.d.? Some of them are presumably out of range, and the waifs are not especially in portant. the Saxifragaceae for the next setting of the Club, & have the ranges pretty well figured - t except R. Q. Institution of Tachiagton, critical "The relation of plants to tide-levels", with Prefessor Marlan H. More as junior author, is a valuable soutribution to the science of botanical ecology. It contains 162 pages, 20 plates, and several tent figures and to bles. The ablication is the result of eight summers' work on the plants of the inter harbor (an area of about 110 acre.) at Jold apring Jarber, Long Island, "to determine and record the distribution of the plants occurring in this harbor in relation to external factors". Judging from the published results it would appear that the surpose of the investigations, as quoted above, have been admirably achieved. The sublication say well serve as a model for further studies of this type in other localities.

My dear Professor Collins: --

Permit me to remind you of your very kind promise to deliver an adress at 4 o'clock in the afternoon on Sunday next at St. Ansgarius' Church on the subject of Carl von Linné, or Linnaeus, as I believe he is called in English. We are all exceedingly pleased at the prospect of such a privilege.

Permit me to remind you, that any friends you should wish to invite, will be very welcome. If there had been admission charged, I should have sent you any desired number of tickets, but as it is, there will be no need of them as the festival is free to all.

With heartiest thanks and best regards

Yours very truly,

C.J. Ljunggren

THE LLOYD LIBRARY AND MUSEUM

THIS institution is legally a stock company, the stock being owned and the institution supported by Curtis G. and John Uri Lloyd. Mr. C. G. Lloyd has erected the buildings and supports the botanical section, and Professor John Uri Lloyd supports the pharmaceutical department. The buildings and contents are transferred to the stock company, and funds are provided for its continuance when the life work of its builders is finished. It will never be sold, and will always be a free and public institution for the benefit of science. Further details regarding the buildings are given on the last page.

BUILDING NO. 1, ERECTED IN 1902.

DEVOTED EXCLUSIVELY TO A MUSEUM OF FUNCE

BUILDING No. 2, ERECTED IN 1907-8.

DEVOTED EXCLUSIVELY TO A LIBRARY OF BOTANY AND PHARMACY

THE LLOYD LIBRARY AND MUSEUM

BUILDING No. 1

This building was erected by C. G. Lloyd in 1902, and was designed to contain both the books and the specimens, the two upper floors being devoted to the books and the lower floor to the specimens. During the short time that has intervened our library has increased so rapidly that the building is inadequate for its purposes, and during the past winter a new building has been erected to be devoted exclusively to the library. The old building, now known as the Lloyd Museum, will contain the herbarium and the mycological collection. The herbarium of pressed plants is estimated at about thirty thousand specimens, chiefly obtained by exchange by C. G. Lloyd during his earlier years. The mycological department contains many thousand dried specimens of fungi, particularly of the Gastromycetes, estimated at not less than five thousand different collections. There are more specimens of this family ten times over than in all the other museums of the world combined.

BUILDING No. 2

This building was erected in the winter of 1907 and 1908. It is four stories, 221/2 x 72 feet. It is devoted exclusively to Botany and Pharmacy (with a section on Eclectic Medicine), and contains a collection of books among the largest on these subjects. The volumes have not been counted, but some idea of the number may be obtained from the following statistics: There are 6,253 linear feet of shelving, and the books now occupy 2,600 linear feet of this space. As a shelf is found to hold on the average 429 books to every 50 linear feet, the estimated number is 22,308 volumes. Cases have been placed in the upper floor, but the other three floors have only wall shelves, with provision made for floor cases in future as the needs of the library may require. When completely filled with shelving the library has a capacity of 11,413 linear feet, sufficient to shelve 98,000 volumes. If the collection of books continues to increase as it has in the past five or six years, the full capacity of this library will be taken in the next twenty years. We do not know that we shall ever accomplish it, but it is our ambition to make the Lloyd Library in time a practically complete library of its subjects.

Professor J. F. Coldins, #468 Hope St.,

Providence, R. I.

Dear Professor Collins:-

We are making an effort now to complete our publications relating to American botany and have thus far been unable to obtain a copy of "Key to New England trees, wild and commonly cultivated, Providence, 1909," by J. F. Collins and H. W. Preston. Can you favor us with a copy or advise us the publisher or other source from which it could be obtained?

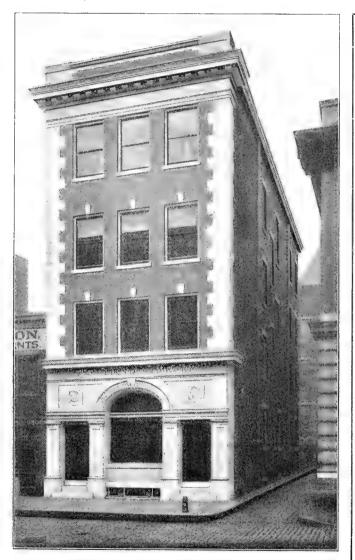

Assuring you that we will appreciate any attention you may show us in the matter, we remain,

Yours truly,

The Lloyd Library.

Hartford, Oct 15, 07, My dear Mr. Collins. Thank you very much for your report on my Hypnum from I wokermans, It is evidently one of those puzzlesome Drefanoclade. I will look at it next time I am at the Garden. I always used to comhave my Willoughby specimens with Norwegian ones, What foreign mosses most re-

the Second Secretangenip, or Secretangenip, or It vion in the give, & the mosses my annie Loven; New had on the Gaspe pennew had on the Gaspe penvisula, to judge by Mr. Fernaldi article! are there good hepatics on those serpentine mountains?

Here are a couple of Waterville mosses. H. Jamesii is very abundant on all the summits, on the balsam scrub, The letraplodon is from the "V", which is a very choice spot. I have been really getting more hepatics than mosses this summer. Waterville is evidently well

Oct. 19. 1907.

Wy dear Miss Torenz:

Thank you ever so much for the New Fampshire mosses. I wish I had time to pick out some to send you in return at this time, but I have had no time since college opened to even look at a moss. You will understand this when I say that this term I ar conducting four classes besides some special and graduate work, with no assistance other than that supplied by two undergraduates, neither of whom have ever studied botany before. I have credited you with the mosses on my moss "ledger" so there is some prospect of your getting something in return sometime.

Yes, there sood hepatics in Caspe. I think

you will see some of them later. I not about

600 numbers of Tryophytes and lichens (and a few

fungi) this surmer, and more than 200 photographs.

Probably each number will average or 10 specimens.

Ar sorry that you could not accept the Secretaryship,

but I do not blame you for declining. 'r. Chamber
lain writes me that Dr. Trye is to be you next

President. Fe did not say who was running for Secretary however.

Very truly,

Toverham 4, John

'v dear "ios (crenz"-

the Flindia which you offer in the current invologist. I have been interested in your article on "Totes from Waterville "".

Thave found Anacamptodon fruiting abundantly or a west exposure at Morth Anson, Taire.

To the south of the tree, however, there were other taeps which shaded the moss more or less so that the west was, in this case, the direction of the most sun. I have found it promine or elm, maple, and oak.

Wery truly,

Though you very much for all the reprints which you so kindly sent. I am very afad to have them.

It was a great bleasure to meet you.

the other day. I hope that you enjoyed the Boston meeting as much as e did, I wish that I had been able to hear your paper, as I am Interested in Diaporthe but my own came at the same time.

Yours sincerely, annie Lovenz

January seventh.

Hartford, Nov. 13, 1908, My dear Prof. Collins. Thanh you very much for the rehunts of your notes on N.E. mosses. Of those Maine mosses which you mention, we have the fist three at Willoughby. in just such marly places. Probably the fourth is there also, but still undetected.

Here is Georgia geniculata (Grig)

dindb, from Waterille, N. H. Uro,

Britton says that it is new to NIH. Do you know what is its N. E. distribution? I want to write it up for Bry, but have no Efecimens for comparison. It grew on the ground at the edges of little caves formed by overhanging ledges. I see by your list that you have it from lass, any gurther information that you can give me will be much af heriated.

I was for eight weeks at Waterielle, but have been giving more attention to the Miso Ambie Womens, 96 Gerden Sympet, Homboort, 15.

Grindelia -Where found- Grotto Ave. Faut., R.J. Uhen found- Sept 21, 1898. Collected by - Margaret & Mc Cudden

The "Artemisia" was
found on Grotto Ave. growing
near the 'Grindelia' It
grew in a dump-heap
consisting of gravel and
clinkers. No salt-water
near. I send you a
whole plant.

Margaret & Mc Cudden

J. Franklin Collins - Fronkruce P.S. Dear Sir: in the last number of Phodora are accoult of a trip to Mr Tatahdin by a party of which you were a member Hora that you would like to see hangs for specimens from this vicinity? Thave of the Mansfield flora a fair representation, of the White Mts a good que, of Mt K- nothing Would or grad to hour wenthing you collected there I am collecting this season during Span moments and at the sud of the sea. can offer you an interesting hist-

Enterety or by seketion I guarantee my specimento be first class in every particular. never send out trash. I can refry to Walter Deans of Cam. Indge as to the quality of my spreimeno I you would not can to exchange, can you tell me if there are any other members of the party that would wish to Frank EM make 417, California Avs.

Leona Ilf Jan 31-1911 J. Franklin Collins - Frondence R.S. Dear Lir: specimens of Thynchostsgium came to Land some days ago thing my absuce from home have had a strong call for this moss and on looking was my duplicates I find I have only a few fragmentary ofreigens left, that I would not send out on a few weeks I can collect some very choice opecimens of it, and will be pleased to send you some. not forget Jours truly madd

Vealody nov. 14-1902 my dear mr. balline It was very good of you to send me your articles on Tris Hookeri and the extension of range of typical Lycupodium complanatum and I am exceedingly alleged for the same. If you should like specemens of any of the morres mentioned in Robinsoné Alora of Erry Co. mars perhaps I could gathe some for you. I fromerid m. I hamberlain to get him some Buybaumia and Diffysium but ar yet have not been able to do so as either the have have covered up the sports or the flants failed to fruit. However he will get them some time of it takes a leg because I know the flants are those. Sinceres yours. In ackintoch
